this title helps clarify complex areas of the jct 05 standard building contract making it an essential reference for professionals seeking to update their knowledge the book works through the contract issues thoroughly yet clearly using case law examples to demonstrate the latest amendments in regards to the construction act

books about construction contracts tend to be dense and wordy but what most architects quantity surveyors project managers builders and employers are looking for is an easily navigable simple guide to using a contract written in plain language the jct standard building contract 2011 is an uncomplicated book about a complex and commonly used contract it straightforwardly and concisely sets out exactly what the contract requires in various circumstances as far as possible without legal jargon and without assuming any particular legal or contractual expertise from the reader it explains often from first principles exactly what is meant by a contract and why certain clauses such as extension of time clauses or liquidated damages clauses are present and more importantly what they mean the book is divided into many chapters each with many sub headings to make it easy to read and to help readers to find relevant explanations quickly tables and flowcharts are used to ensure clarity and most chapters include a section dealing with common problems covers the recently issued jct standard building contract 2011 straightforward concise and as far as possible free of legal jargon sets out exactly what the contract requires in various circumstances includes many tables and flowcharts to ensure clarity

the joint contracts tribunal s jct standard form of building contract one of the most common standard contracts used in the uk to procure building work is updated regularly to take account of changes in legislation and industry practice and relevant court decisions from litigation the jct 05 standard building contract law and administration is a second edition to the authors earlier award winning the jct98 building contract law and administration and clarifies complex issues surrounding obligations and rights under the contract this makes it an essential reference for construction professionals employers contractors and lawyers new to construction seeking to update and consolidate their knowledge the book also provides the knowledge and understanding of the contract which are a fundamental part of the education of most students who go on to become managers and leaders in the construction industry it thoroughly works through the provisions of the contract in simple language using case law examples and relevant statute to demonstrate approaches to its interpretation

this tenth edition of david chappell s bestselling guide has been revised to take into account changes made in 2016 to payment provisions loss and or expense insurance and many other smaller but significant changes and includes a section on performance bonds and guarantees this remains the most concise guide available to the most commonly used jct building contracts standard building contract with quantities 2016 sbc16 intermediate building contract 2016 ic16 intermediate building contract with contractor s design 2016 icd16 minor works building contract 2016 mw16 minor works building contract with contractor s design 2016 mwd16 and design and build contract 2016 db16 chappell avoids

legal jargon and writes with authority and precision architects quantity surveyors contractors and students of these professions will find this a practical and affordable reference tool arranged by topic

the latest edition of the jct guide series provides a practical comprehensive overview of the 2024 jct standard contract suite sbc q sbc aq and sbc xq it organises and explains all provisions procedures and conditions by subject clearly outlining the obligations of various parties and addressing key contractual issues that may arise during a project supported by the most recent legislation and case law key features of the 2024 edition detailed analysis of the jct standard building contract 2024 explaining every update coverage of recent legislative changes including the building safety act building regulations part 2a and procurement act 2023 case law updates on key topics such as design liability concurrent delay practical completion liquidated damages and more comparative insights on nec4 and riba building contracts offering broader context for contract administration new figures and tables designed to enhance clarity and usability this guide is not only an essential reference for busy practitioners but also a valuable resource for architecture and construction students preparing for their professional exams requiring no prior knowledge of jct contracts or law

this ninth edition of david chappell's bestselling guide has been revised to take into account changes made in 2011 to payment provisions and elsewhere this remains the most concise guide available to the most commonly used jct building contracts standard building contract with quantities 2011 sbc11 intermediate building contract 2011 ic11 intermediate building contract with contractor's design 2011 icd11 minor works building contract 2011 mw11 minor works building contract with contractor's design 2011 mwd11 and design and build contract 2011 db11 chappell avoids legal jargon but writes with authority and precision architects quantity surveyors contractors and students of these professions will find this a practical and affordable reference tool arranged by topic

this latest edition of david chappell's bestselling guide provides an expanded presentation of the joint contract tribunal jct standard contracts the most common forms of building contract the jct contract with contractor's design wcd 98 also known as the design and build form is now covered alongside the other three major forms of contract in the jct series jct 98 ifc 98 and mw 98 david chappell has updated the book in line with amendments to the contracts and recent case law he avoids legal jargon but writes with authority and precision in a style which won for the fifth edition of the book the first prize in the best textbook category of the 1999 chartered institute of building literary awards architects quantity surveyors and contractors and students of those professions should find this a straightforward and

practical reference tool arranged by topic

many building projects are the subject of claims the assertion of a right usually by the contractor to an extension of the contract period or an additional payment under the terms of the building contract many of these claims are unsound or ill founded often because the basic principles are misunderstood this highly regarded book examines the legal basis of claims for extensions of time and additional payment and what can and cannot be claimed under the main forms of contract it includes chapters dealing with direct loss and expense liquidated damages extension of time concurrency problems acceleration time at large common law and contractual claims global claims and heads of claim and their substantiation with the publication of the fifth edition building contract claims has been thoroughly revised to ensure it is fully up to date with the latest contracts court judgments and building practice changes include coverage of over 60 additional relevant court cases coverage of the 2005 jct contracts suite coverage of changes to the nec contract coverage of additional contracts such as constructing excellence measured term contract and the aca ppc2000 contract together with the 2005 relevant jct sub contracts important changes to liquidated damages and to extensions of time and the giving of notices appendix 1 has been substantially revised like its predecessors the fifth edition of building contract claims will be essential reading for architects contract administrators project managers and quantity surveyors as well as contractors contracts consultants and construction lawyers

the joint contracts tribunal standard form of building contract jct 98 is now a well established and widely used form that is not to say however that it is always well understood it is a large complex contract with a number of particularly difficult provisions it is not surprising therefore that not much guidance has been published on the form this book first written by john parris in 1982 and revised in 1985 was widely regarded as a valuable commentary on the standard form unavailable for some years it has now been substantially updated and completely rewritten by david chappell major changes have occurred since the last edition including a raft of amendments to the contract itself much new legislation including the housing grants construction and regeneration act 1996 and substantial new case law the book covers all these as well as the complex performance specified work provisions and the difficult problems of nomination the nominated sub contract conditions are referred to where appropriate and the book contains guidance on related matters such as warranties letters of intent and quantum meruit the book is not simply a re writing of the contract in simply terms it contains very valuable insights and much needed guidance on some of the lesser known implications of the current form the book will provide a valuable reference for clients professional advisers and contractors as well as for lawyers needing an introduction to the contract

this edition provides an expanded presentation of the most common forms of building contract the joint contract tribunal of jct standard contracts architects quantity surveyors and contractors and students should find this a straightforward and practical reference tool arranged by topic

the joint contracts tribunal s standard form of building contract is the most common contract used in the uk to procure building work understanding it is a core part of any construction student s degree and a vital part of the working life of professionals in the construction industry the jct98 building contract works through the contract systematically explaining it in easy to follow language covering all contract issues thoroughly and illustrating with case law examples the current situation and latest amendments it is ideal reading for both the student of construction and the professional seeking to update their knowledge

although the majority of construction work these days is carried out by sub contractors there are surprisingly few books dealing with building sub contracts and the related law this book provides a much welcomed guide to the new 2005 jct standard building sub contract sbcsub and sbcsub d which is likely to be the regular sub contract form used by contractors when letting works under the radically revised 2005 jct standard building contract peter barnes who has over 30 years experience of contractor sub contractor relationships provides a clause by clause commentary on the sub contract highlighting practical issues and considering relevant case law the book will be of interest not only to sub contractors and main contractors but also to other construction professionals and lawyers who need an understanding of the contractual relationship and allocation of risk between contractors and sub contractors the author peter barnes msc construction law and arbitration dipicarb fciob fciarb mrics is a chartered arbitrator a registered adjudicator and a ciarb trained mediator he has been actively involved in the construction industry for almost 30 years and has a wide experience of many types of construction work including building both new build and refurbishment civil engineering and mechanical and electrical installations he spent many years working for main contractors undertaking both surveying and management roles and during that time he has administered and settled a multitude of sub contract accounts on a variety of different contracts his experience with sub contracts covers both simple and complex contracts and has involved detailed examination of contractual entitlements his practical background has led to an in depth understanding of the allocation of risks in contractor sub contractor relationships since becoming a consultant peter barnes has represented many parties in both adjudications and arbitrations has acted as an expert witness in respect of both liability and quantum and has been appointed as adjudicator by both the chartered institute of arbitrators and the construction industry council his wide experience base has led to him being appointed to the committees of the

chartered institute of building eastern branch the chartered institute of arbitrators east anglia branch and the institution of civil engineering surveyors anglia and central branch also of interest the law management of building subcontracts second edition john mcguinness 1 4051 6102 7 978 14051 6102 2 the jct intermediate building contracts third edition david chappell 1 4051 4049 6 978 14051 4049 2 the jct minor works building contracts 2005 fourth edition david chappell 1 4051 5271 0 978 14051 5271 6 the nec 3 engineering and construction contract second edition brian eggleson 0 6320 5386 0 978 06320 5386 5 building contract casebook fourth edition michael furmston 1 4051 1881 4 978 14051 1881 1 one hundred and fifty contractual problems and their solutions second edition roger knowles 1 4051 2070 3 978 14051 2070 8 cover design by workhaus

whenever a contractor undertakes work using one of the standard building contracts however small the job writing a good many letters will be involved some will be formal notices it is necessary to give others will be letters it is prudent to send this book provides a set of over 300 standard letters for use with the standard forms of building contract and sub contract and aims to cover all the common situations which contractors will encounter when involved in a contract it has been substantially revised to take account of the 2005 suite of jct contracts together with changes in case law and the 2007 cdm regulations the letters are for use with the following contracts jct standard building contract sbc jct intermediate building contract ic and with contractor s design icd jct minor works building contract mw and with contractor s design mwd jct design and build contract db jct standard building sub contract conditions sbcsub c and with sub contractor s design sbcsub d c jct intermediate named sub contract conditions icsub nam c jct intermediate sub contract conditions icsub c and with sub contractor s design icsub d c and jct design and build sub contract conditions dbsub c there are also letters for use with gc works 1 and its subcontract all of the letters in the book are available for download and use at the following url [wiley.com/legacy/wileychi/chappell1](http://wiley.com/legacy/wileychi/chappell1) along with details of how to access the material
